

FIFA RECOMMENDED QUALITY LEVELS

Based on player surveys, medical research and test results, as well as on information from the industry, in the summer of 2004 the existing standard (FIFA RECOMMENDED 1 STAR) was supplemented with a second standard (FIFA RECOMMENDED 2 STAR).

The development of this second standard was to satisfy the most rigorous demands in top class football and will further improve the playing conditions and safety of football turf pitches.

Perfect playing conditions all over the world.

All over the world, football turf pitches with a "FIFA RECOMMENDED" mark provide the best possible playing conditions. Irrespective of the location, time or climate, a football turf pitch with the internationally accepted FIFA seal of approval unites excellent playing conditions similar to those on a good grass pitch with the advantages of an artificial pitch: longer playability, less maintenance work and costs, and high resistance to weather and climatic changes. Football turf – for great matches. Fédération Internationale de Football Association, FIFA Quality Concept, FIFA-Strasse 20, P.O.
